50X1-HUM

1. The salvaged submarine, Type 7C, now at Warnemuende, is of approximately 500 tons, about 63 m long, and has two engines, each of 1,450 HP. This boat has completed its interior cleaning and is now being painted. The engines will be taken out and sent to the Diesel Motoren Werke in Rostock for overhaul on about 1 July 53. It is planned to move this boat to Stralsund for final repairs and overhaul. According to an officer of the Seepolizei, it should be ready for handing over to the Seepolizei in April 1954. There is a Seepolizei officer and a crew of about 25 men on board.
2. A member of the Bergungs u. Rettungs Kommando, Sassnitz, stated at the end of May that attempts are to be made to search the whole of the East German coast for other sunken submarines and raise them.
